- Super fast charging, 4-5h battery life.
- Concealed universal wheel design, easy to move.
- Rotating stand, support horizontal/vertical screen, adjust the angle at will.

iii. product specification sheets

24-inch boudoir machine			
Product Model Number			
Screen	Dimensions	24" 16:9	
	Resolution	1920*1080	
basic specifications	operating systems	Android14	
	Processor	RK3576	
	Memory	LPDDR4+UFS capacity optional	
	equipment power supply	19V3A	
	equipment power consumption	≤38W	
	relative humidity	10%~90%	
	Operating Temperature	0°C~40°C	
	storage temperature	-20°C~60°C	
	the environment in which it is used	Indoor	
	external interface		USB2.0 Type A* 1
			USB3.0 Type A* 1
		TYPE-C OTG* 1	
		RJ45 Gigabit Ethernet port* 1	
		DC IN* 1	
	3.5mm headphone port, support for headset as a		

		whole
		HDMI IN up to 4K 60fps
	Speakers	8Ω3W*2
Basic parameters	WIFI	2.4G/5G Support WIFI6
	Bluetooth	Supports Bluetooth 5.2
	Camera	200W external magnetic camera
	Web port	RJ45 Gigabit Ethernet port
	TF card	Support
	4G	Optional
	Microphone	Optional

VI. Packaging and instructions for use

materials/tool lists

Serial number	Name of material/tool	Dosage	Description
1	Mainframe and self-contained accessories	1	With accessories including: power adapter, screen connecting cable, desiccant, inspection certificate and so on
2	Network cable (optional: to be purchased)	Several	for laying out Ethernet and other residual alignments
3	Network cable clamp, network tester, diagonal pliers, electrical tape, wire snap (optional: need to be purchased)	Several	for laying out Ethernet and other residual alignments

VII. installation considerations

1. The actual wiring, if the host's 12V power supply line does not use a "special power extension cable" and the distance is long, resulting in the cable equivalent resistance is too large, it is easy to terminal voltage ($\leq 12V$), the host repeatedly reboot, crash and other abnormal phenomena.
2. The installation environment should never be humid, and avoid strong electricity and strong electromagnetic fields. Such as electromagnetic appliances, cell phones and other appliances that can be moved at will should be as far away from the equipment as possible.
3. This product is a precision device, avoid collision, drop, vibration, so as to avoid the main board components fall off or internal damage to the camera, resulting in functional problems or performance problems.
4. When the display is assembled, the connection cable cannot be hot-swapped.
